Introducing the New Giant Seven-Footer

Our Two and Three-Footer diameter Spiral Wishing Wells have raised over \$200 million for non-profit organizations around the world. We are very excited to introduce the new Seven-Footer specifically designed for locations with greater floor space such as large stores, malls, museums, zoos, planetariums, aquariums, theaters, bowling centers, libraries and all sporting events.

Seven-Footer • Available in several colors

This new model is much more than the largest production coin funnel on earth. It includes:

- 8 launch ramps (four 2-way ramps) for extraordinary play value.
- The ramps are molded as part of the fiberglass for superior durability.
- Our proprietary "V-Chute" ramp can launch coins AND balls (marbles and ball bearings) so it is great for fund-raising, and can also be used for orbit demonstrations.
- The ramps are OUTSIDE the funnel, so the coins or balls perform on an unobstructed full-circumference surface for more spirals than other models.

With these unique new features and the impressive size, after some local testing, we can confidently say that the Seven-Footer generates a LOT more play value and revenue than other coin funnels.

To see more pictures and various pricing options, please see www.spiralwishingwells.com/sizes/7-footer.html.

I would like to talk with you further, and invite you to give me a call after you have visited that web page and looked at the pictures. If you want a Seven-Footer, we won't let anything get in the way of making sure we get one to you!
